All,

My apologies, I did not attach the postcard to the original email. Here it is now.

Sincerely,

Diana Rangel
 Health Assessment and Consultation Program Intern
 Environmental Epidemiology & Toxicology Unit

Subject: DSHS Visits CES Environmental Services Site

The Texas Department of State Health Services (DSHS), Health Assessment and Consultation Program staff will be visiting the community near the CES Environmental Services site.

The CES Environmental Services site is a former industrial cleaning, waste recycling, and waste treatment facility. The facility was comprised of three properties located at 4900 and 4904 Griggs Road and 5910 Wayland Street, Houston, Texas. Numerous chemical storage containers as well as chemical spills were discovered on site. In September 2014, the EPA and the Texas Commission on Environmental Quality (TCEQ) began cleaning up the site.

In November 2014, at the request of the U.S. Environmental Protection Agency (EPA), DSHS staff and EPA visited with residents in the neighborhood near the CES Environmental Services site. The purpose of the visit was to gather and address health-related concerns associated with the site.

The week of September 29, 2015 through October 2, 2015, DSHS staff will be conducting a follow-up community visit. The purpose of the visit is to assist DSHS in identifying continued and new concerns of nearby residents. Attached you will find the postcard that was sent out to inform residents of our upcoming visit.

If you have any questions or concerns you may contact me at 1-800-588-1248 ext. 2678.
During the week of September 29, 2015 we can be reached at 512-981-8397 or 512-981-8415.

Please forward this information as needed.
